

Make Me Believe

Music and lyrics written by Rene-Arie Seemann

CHORUS 1	CHORUS 2
I feel so ashamed that I wish I could die. I fell too deep that I thought you must be a lie.	Here I'm falling down on my knees. And I try to send you all my Appologies.
Have no reasons to keep movin on this life. I lost my faith, my hope and didn't see your light.	I should be thankful that I still alive. But my wish to die never stops since I'm five.
Can you tell me why, it turns all in black? I thought that my demons would never turning back!	I'm so tired but I can not sleep. Pills and wine let me keep on falling into the deep.
I have no answers, I have no power, I am just a human. What else should I be? Make Me Believe!	I have no answers, I have no power, I am just a human. What else should I be? Make Me Believe!

REFF

Send me your Love,
Send me your mercy,
Send me an angel!
Who leads me way back home!

I need your strength,
I need your hope, I need your help,
I need it all!
To find my way back home!
